

Appliance and Electronics Recycling Event

Presented by the City of Warrenton and the Warren County R-III School District

WHAT: Any Electronics and Appliances. Examples of accepted items included: air conditioners (window or central units), water heaters, ranges, refrigerators (Freon can be left in unit), washers, dryers, dishwashers, microwaves, small appliances (toasters, waffle makers, etc.), laptops, monitors, televisions, computers (all hard drives are shredded or wiped with DOD approved software), keyboards, mice, printers, fax machine, scanners, speakers, cameras (video, 35mm, digital), VCRs, DVD players, all gaming systems and game cartridges, music equipment, satellite receivers, copiers, power supplies, radios (including turntable, 8-track, stereo equipment, ham radio), typewriters (word processors, etc.), humidifiers, dehumidifiers, curling irons, hair dryers, rechargeable batteries and lead batteries(car, tractor, marine), fans, vacuum cleaners, cell phones, remotes, telecom equipment, chargers, etc. *Basically, anything with a battery or cord attached to it. Some items will not be accepted, including, but not limited to: smoke detectors, glass lamps, bulbs, and alkaline batteries.*

WHERE: In the parking lot behind Black Hawk Middle School

Directions: I-70/South on Hwy 47/Left on Walton St./Right on Kuhl St./Enter driveway to rear parking lot.

WHEN: October 31, 2009 from 9am until 2pm. This event will be held rain or shine.

WHY: Americans have discarded more than 154 million computers in the past 20 years. Consumer electronics are responsible for 40% of the lead found in landfills. To manufacture a new computer without using recycled material requires fossil fuels and chemicals that amount to at least 9 times the weight of the computer! Be sure to keep YOUR old electronics out of landfills!

COSTS: Everything is FREE with the exception of TVs which are \$15 each and monitor's which are \$10 each to cover processing costs to properly recycle the 4-8lbs of lead content in each CRT. Every other item with a cord or battery will be properly recycled for free. *There is a short list of items that will not be accepted.*

For recycling information call Midwest Recycling Center at 636-931-3930
or email Midwest Recycling Center at tony@midwrc.net
