

Supplemental Educational Services (SES) Provider Summaries 2011

To schools in second and subsequent years of school improvement status:

The summaries of the providers' information are organized by areas of the state. This section includes those that will serve the Northeast region. Choose the providers who will serve your district/LEA and include those summaries in the parents' document. **You must inform eligible parents of all providers who are approved to serve STATEWIDE all districts/LEAs and your district/LEA.**

The school districts/building providers **highlighted in blue** are **CONDITIONALLY APPROVED** pending the Missouri Department of Elementary and Secondary Education receiving a waiver from the U. S. Department of Education to allow districts and schools in improvement to be a provider. They may be listed on information sent to parents but it must be made very clear that they may not actually be allowed to be a provider and parents should make alternate selections in case the waiver is not granted. Contracts cannot be finalized with these providers and they cannot provide services to students until they receive final approval.

To Parents: Summaries of services offered by the state's approved Supplemental Educational Services (SES) providers for after-school tutoring are included below. If you have questions about a program or other information given by the providers, contact the building principal or other district contact person provided in the SES letter. **NOTE:** Evidence of Effectiveness is often based on the provider's own assessments.
