BORDERS Book Fair Voucher Supporting The Warrenton High School English Department

Warren Co. R-III
School District

The Warrenton High School English Department dedicates itself in part to increasing both students' ability and desire to read. One of the key components to meeting these goals is having reading material at a variety of levels and covering various subjects.

In the last two years Warrenton High School has held numerous book fairs dedicated to the growth of the department library. The English department, with student input, has chosen and purchased hundreds of dollars in books designed to increase student engagement with reading.

Our students and teachers will be at Borders at various times throughout the weekend to showcase our dedication to increasing reading skills. We request your help in providing the books needed to the students. Please come out and support our students in their quest to become better readers by participating in the Borders Book Fair.
