COVID Safe Return to School Plan

The district is required to approve this plan every six months through September 2024. There are three changes to the plan. The district will no longer notify classrooms when there is a positive COVID-19 case in the classroom. This is consistent to how all other illnesses are handled. Attendance calculation for students who are absent due to being positive for COVID-19 has been updated to align with the state requirements. When a student is in the nurse's office waiting to be picked up for being positive, the language was changed from will be given a mask to may be given a mask.
